WORLD CLASS SPORTBIKE SADDLES

THE SADDLE THAT REVOLUTIONIZED  
THE COMFORT OF SPORTBIKING.™

© 2012 Zero Gravity Corporation

# NEW PERFORMANCE SADDLES FROM

From canyon carving to long distance sport touring, Zero Gravity's new lineup of sport bike saddles now provide a comfortable ride without sacrificing performance. No longer is a sore butt necessary to experience the performance capabilities of today's high tech sport bikes. Zero Gravity's specially formulated foam allow the rider to "feel" the road without feeling the pain normally associated with sport bike OEM seats or even the so-called "gel" seats.

- "Hang off" or go the distance in comfort.
- Stylish custom look.
- Highest grade vinyl seat skins.
- Black or contrast stitching.
- Lightweight ABS base, fits like OEM.
- Specially formulated foam allows "give" without sacrificing firmness.
- Matches the look and quality of Zero Gravity's world class windscreens.
- Fits using the rubber grommets and stops from your OEM seat.

## INTRODUCING THE NEW

# LATIGO<sup>TM</sup> SERIES

## PERFORMANCE SADDLE FROM ZERO GRAVITY<sup>®</sup>

Latigo Canyon is one of Southern California's most notorious canyons where many champion sport bike racers first cut their racing teeth, and countless magazine editors have tested the limits of the latest sport bike models of the day.

Stretching more than 10 miles from the infamous Rock Store to Pacific Coast highway in the Santa Monica Mountains of Southern California, Latigo Canyon offers 90 turns that challenge the capabilities of rider and bike.

Latigo Canyon  
Malibu, CA
